PROFILE SUMMARY

Results-driven Technical Consultant with experience in enterprise software integration and implementation, contributing to 6+ client projects across diverse Indian markets. Demonstrated expertise in delivering Oracle NetSuite solutions for clients.

Proficient in JavaScript development with front-end and back-end technologies. Currently specializing in Tax Technology Solutions, providing strategic technical consulting and innovative approaches to complex tax compliance and automation challenges.

CORE COMPETENCIES

- **NetSuite Expertise:** SuiteScript (1.0 & 2.x), SuiteFlow, SuiteBuilder, custom records, advanced searches, reporting, dashboards, and multi-subsidiary configurations.
- **Integration & Orchestration:** Enterprise system integration using REST/SOAP APIs, third-party platforms (Retool, Stitch, Airbyte, outlook), and cloud-native pipelines.
- **Tax Compliance Automation:** E-invoicing and GST compliance (E-Invoicing, GSTR-1, GSTR-2, E-Way Bill) with ERP and third-party systems.
- **Application Development:** Full-stack development using ReactJS, NodeJS, Express; optimized for scalability and performance.
- **Data Engineering & Transformation:** ETL/ELT design, data migration, and transformation strategies.
- **Technical Implementation & Customization:** Hands-on development, debugging, performance tuning, and client-specific functional enhancements.

TECHNICAL SKILLS

ERP & Integration Platforms: Oracle NetSuite, Oracle EBS, ERPNext, ClearTax, SuiteTalk (SOAP), RESTlets, Stitch Data, Airbyte, Retool

NetSuite Development & Configuration: SuiteScript (1.0 & 2.x), SuiteFlow, SuiteBuilder, custom records, CSV imports, saved searches, dashboards, SuiteAnalytics, multi-subsidiary support, revenue recognition, intercompany eliminations

Languages: JavaScript (ES6+), SQL (PL/SQL), C++

Data & ETL Tools: Airbyte, Stitch, Postman, Swagger

Frameworks & Libraries: ReactJS, NodeJS, ExpressJS

Database Systems: Oracle DB, MongoDB, Firebase

Version Control & CI/CD: Git, GitHub, Vercel, GitHub Actions

Debugging & Logging Tools: SuiteScript Logs, SuiteAnalytics Workbooks, Chrome DevTools, Script Deployment Logs

IDE & Dev Tools: Visual Studio Code, Oracle SQL Developer

PROFESSIONAL EXPERIENCE

Engineo Solutions Pvt. Ltd.

Technical Consultant | September 2024 – Present

Key Responsibilities:

- Supported implementation of **Oracle NetSuite ERP** for 6+ clients across retail and services sectors, contributing to successful go-lives within planned timelines.
 - Developed and maintained **SuiteScripts** for process automation (e.g., invoice creation, field validations), reducing manual effort by approx. **25–30%** in select processes.
 - Helped perform **data migration** for 10+ subsidiaries using **CSV imports and validation searches**, ensuring **>98% data accuracy** across key financial records.
 - Assisted in integrating **Third Party APIs** with NetSuite for GSTR-1 GSTR-2 and e-invoicing, improving client compliance and helping reduce turnaround time for filings by **20–30%**.
 - Built custom reports and dashboards that were adopted by client finance teams to monitor collections, improving visibility and decision-making speed.
 - Used **SuiteAnalytics**, **Postman**, and **Chrome DevTools** for script debugging and API testing; improved personal issue resolution speed by **~40% over 3 months**.
-

Videostori

Software developer Trainee | January 2024 – August 2024

Key Responsibilities:

- Developed and implemented a real-time analytics section to enhance data visualization and user engagement.
 - Improved website responsiveness and optimized user experience through collaborative feature integration.
- Maintained and updated the website to align with performance standards and industry best practices.
-
